A Lining Purchase of Momentous Importance.

An unlooked-for bit of good fortune. A chance such as few women have ever had the opportunity to deal in, and demanding of their fullest attention. It's the entire spring lining stock of a New York manufacturer (M. Marcus & Co.), a firm whose name and fabrics are held in the highest esteem. It was only shrewd trading on our part that gave us this stock for the little money we paid for it. Inasmuch as the field was full of ambitious merchants clamoring for the same plum, we'll show you what bargaining we can do with such a stock. Every home in Washington will know of it. We add an extra loud hint to dressmakers. Speculate, buy as much as you can. That's our advice, for you'll wait a long day for another such list of prices. And then the chances are 10 to 1 that our

Wash Goods Are Queens

Among the fabrics from this time on, and all honor to their reign. Regal, indeed, are the qualities of the season-never were light, gauzy materials so veil-like and wonderfully tinted—such colors no season ever brought forth. Such crispness and daintiness, such comfort-inviting cottons never found their way into one place. They are here in all perfection, wonderful examples of man's surpassing skill and ingenuity, noteworthy examples of low-priced high qualities.

Show of Silk Waists.

—Our collection of silk waists is complete, and to say it's the finest in town is to express in a mild way a most convincingly apparent fact. Everybody has a word of commendation and compliment for this stock. We're head quarters for silk waists. We make them a specialty, and we can say without exaggeration that manufacturers are selling waists wholesale for about what our retail price marks show. Strange, perhaps, but true. It's demonstrated here almost daily by salesmen who call.

Rev. Alexander Bielaski occupied the pulpit last evening at the Dumbarton Avenue M. E. Church. There was a large congregation in attendance.

Fire in a Feather Bed. An alarm of fire was turned in Saturday

afternoon, to which the engines answered, for a fire in the dwelling known as 2527 O street, owned and occupied by Isabella Car-ter, colored. The fire was confined to a feather bed and the bed clothing and was extinguished after a loss of about \$20. The fire is supposed to have been caused by sparks from a lighted cigarette. Charge of Petit Larceny.

John Mooney was arrested yesterday forenoon by Policeman Furr of the bicycle squad and held on a charge of petit larceny.

He is charged with the theft of a penny-in-the-slot chocolate machine, the property of J. L. Hammack of 601 H street northof J. L. Hammack of 601 H street northwest. The machine in question was stolen a week or so ago from in front of the drug store of Morris Waters, at the southwest corner of 32d and O streets, a young man named Beach being arrested with the machine in his possession. He was taken to the Police Court and convicted of the charge and implicated Mooney in the theft. Inspection Made.

Representatives of the Baltimore and Ohio railroad and of the Pennsylvania railroad system, respectively, have visited Georgetown and inspected the route for bringing the steam railways into the District as outlined in Senate bill 3444, which trict as outlined in Senate bill 3444, which was introduced at the request of the Georgetown Citizens' Association the fore part of the present week by Senator Gallinger. It is the same one which was drafted by Mr. George G. Boteler and a committee appointed by the chairman of the Citizens' Association. A hearing will be given upon the bill by the Senate committee one day next week.

The work of remodeling the old seminary building at 20th and N streets into a modern apartment house is progressing rapidiy. The quantity of mud found in the Potomac water served daily to Washington citizents was shown to a Star reporter recently by a resident of the West End. He took an ordinary wooden bucket, filled with water, and placed in it about half a teaspoonful of powdered alum, stirring the water after the alum was emptied into it, so as to make it dissolve more readily. After letting the bucket remain in one place for twelve hours the water was perfectly clear, and, what was most astonishing, there was fully half an inch of mud on the bottom of the bucket, besides a slimy sediment on the lower sides of the bucket. The gentleman who made the demonstration has been using this method of clarifying the water, and stated that it was a frequent thing to get half an inch of sediment in an ordinary bucketful of water.

Small Dose,

Bad colds are often mistaken for Consumption, when they are in reality caused by Bronchitis. This disease, in its early stages, can always be cured with Jayne's Expectorant.
